

LIVE UNITED. GIVE UNITED.

Millie is a very proud 88 year old senior citizen. Millie's extended family felt that she needed to get out of the house, engage in social activities and interact with people her own age. Her niece brought her to the **Mentor Senior Center** for the Special Elders Program. After a period of adjustment, Millie began going to the center three days a week. She now participates in all the activities and has made many new friends. Millie said, *"I felt as though I didn't belong there with all the old people, but really we all feel young together."*
