

OUR PURPOSE

The Wickliffe Family Resource Center (WFRC), operated by the Wickliffe City School District, is an organization that strives to bring together services and activities that educate, develop skills, and promote health and well-being in order to improve the outcomes of students, families, and individuals in our community.

The WFRC is a "one-stop shop" to support the academic, economic, physical, social, and emotional needs of our community. We strive to connect people in our community to health and medical resources, food, clothing, and toiletries, as well as job and housing opportunities. Our goal is to help advance the success of students, families, and individuals in our district through full community engagement and integration.

We have established partnerships with local and regional businesses, foundations, non-profits, and community organizations, that will help ensure our sustainability for years to come. Together, this collaborative effort will create an educational environment that will serve our community well into the future.
